Sonovo™
Tinnitus Relief Devices

3rd Floor, 86-90 Paul Street
London, Greater London EC2A 4NE
United Kingdom

Phone: 0161 399 4841

Sonovo is a UK-based brand dedicated to helping people find calm from tinnitus and sensory discomfort through innovative open-ear sound solutions. We design technology that blends empathy with science, allowing you to experience relief without isolation. Our mission is built around one simple belief: that life should sound like you, not your tinnitus. By promoting calm through sound that supports adaptation rather than silence, we help people regain confidence and a sense of control in their daily lives. Sonovo isn’t a medical company. We are a community that believes in adaptation, awareness, and accessible innovation. With every purchase, we donate 5% to Tinnitus UK to fund education, research, and support for

those living with tinnitus. At Sonovo, we are not just reducing noise. We are helping people rediscover peace, comfort, and clarity in how they hear the world. Website: https://sonovo.co.uk/ Phone Number:
